Pacific Power Landlord Agreement

(Page 1 of 2)

By signing this agreement, I understand that I am responsible for paying the electric bill for all properties listed, whenever the bill is not in another customer's name. Generally, this will be the interim period between the occupancy of tenants; however, this may include time when the property is occupied by the tenant but they have failed to establish service with Pacific Power. Therefore, I accept responsibility for ensuring the renters of my properties put the bill into their name on dates specified between myself and my tenants.

While the billing is in my name, I understand that I will be considered a customer with regards to rules and regulations established by the utility. I understand that failure to pay the electric bill may result in termination of this agreement. I understand if I sell this property or choose to terminate this agreement for any reason, I must contact Pacific Power to terminate this agreement.

While the billing is in the name of the tenant, this landlord agreement becomes inactive. I have the right to make changes and request information for my own account; however, I will not be able to make changes to my tenants' accounts without their prior consent. In the event the tenant does not pay the electrical account, the power may be discontinued for non-payment of bills. Pacific Power is not liable for any damages incurred at the property due to a loss of power at the address. In the event the tenant does not make satisfactory payment to have the power turned back on the tenant's account will be closed. When I request the power be restored, my landlord agreement will be opened and I will be responsible for all future billings.

If I do not want the electric service turned off if the tenant becomes past due, I agree to the following paragraph for the terms and conditions by initialing the box.

By initialing the box to the left, I am requesting Pacific Power place the electric service in my name should routine collections occur with my tenant. I understand the electric service will not be discontinued for my tenant and that on the date and time the service would have been disconnected, the landlord agreement will become "active" and the electric service will be placed into my name and account. I authorize this form as my *Application for Service*. I understand the tenant's unpaid charges do not apply to me. However, regardless of occupancy I will continue to be responsible for future billings even if the tenant still occupies the property. The electricity will remain in my name until the tenant has paid the required charges and requested a reconnection for the account.
